

SAFELY POSTING ONLINE

The online world is a permanent, public platform, so think before you post or share online.

BEFORE POSTING YOUR THOUGHTS, PICTURES OR VIDEOS...

- Receive approval from your parent/guardian before posting.
- Ask the person for permission before taking pictures/videos of them.
- Ask the person for permission before posting pictures/videos of them.
- Make sure the pictures are appropriate for posting online.
- Ask for permission before tagging another user in a post.
- Remember your thoughts, photos and videos... remember they can be shared, copied, screen shot and forwarded without your permission once online.
- Make it difficult for a stranger to identify you simply from your profile picture by using a symbol, color, favorite team, etc. to represent you.
- Assure you are not giving away too much information about yourself or others from the post, pictures and videos. Such as a school name and/or location.
